

INTRODUCING

Great for
purging
bioplastics

New & Improved Dyna-Purge® X

Advanced formulation
offers dual action
scrubbing for cleaning
the toughest of areas.

Effective and safe to use in a broad range of
extrusion applications:

- Profile
- Sheet
- Cast Film
- Compounding

Dyna-Purge® X gives you distinct advantages:

- Cleans and removes degraded resins
- Faster changeover time
- Lower scrap rates
- Ideal for shutdown and start-ups
- Consistent and reliable results

New and Improved Dyna-Purge® X expands, reaching and cleaning the hardest areas. Let the dual action scrubbing improve your purging experience – upgrade to new **Dyna-Purge® X**.

- **Save time** – cleans faster, less downtime
- **Save money** – lowers purging costs, lowers scrap rates
- **Save the hassle** – easy to use, no mixing or machine adjustments
